

Course Title: Rubble Wall Building and Repair

Duration: 2 days

Course Description:

This two day introduction to rubble wall building will cover one of the most common build types seen in Scotland, the best way to understand this form of construction is to build using rubble!

Over the course of the workshop you will build to completion a section of rubble wall giving an understanding of construction techniques and the correct material and mortar mixes to use. By the end of this workshop attendees will gain the ability to create repair strategies for rubble masonry structures.

Course Outline:

Topics include

- Health and Safety
- Tools and equipment
- Recognising vernacular traditions
- Creating suitable mortars
- The importance of pinnings
- Rubble masonry building
- Rubble masonry repair

Suitable for: This practical course is aimed at building contractors and those undertaking repair refurbishment, renovation and restoration work to traditional masonry structures. We are always happy to help learners choose the right course. Please contact us if you would like to discuss which course is suitable for you or your employees.
